Space Administration

# Boeing

Spacecraft:  
**CST-100 Starliner**

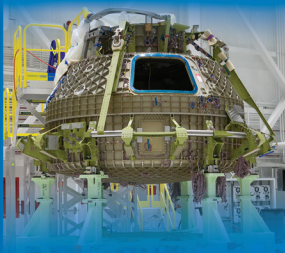

Launch Vehicle:  
**United Launch Alliance  
Atlas V**

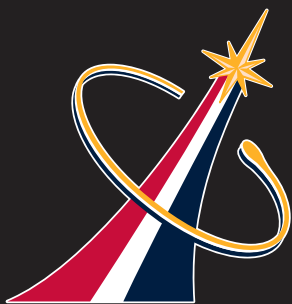

Height:  
**171 Feet**

Launch Pad:  
**Space Launch Complex 41**

Destination:  
**International Space Station**

Crew:  
**You?**

# COMMERCIAL CREW

---

## P R O G R A M

NASA's Commercial Crew Program and its partners in the American aerospace industry are advancing systems to transport crews to and from low-Earth orbit destinations, including the International Space Station, from U.S. soil. By working with companies as they develop safe, reliable and cost-effective systems for low-Earth orbit, NASA can expand human exploration farther into the solar system.
